SUMMARY OF QUALIFICATIONS

Highly motivated Information Systems graduate (GPA: 3.93/4.00) specializing in Backend Architecture, Data Engineering, and IoT. A dedicated backend engineer with comprehensive frontend capabilities, possessing a proven track record of designing robust APIs (Node.js, Golang, PHP), optimizing complex database queries, and handling big data processing. Backed by hands-on enterprise experience in secure API gateway engineering, C/C++ programming for hardware integration, and cross-server data orchestration. Highly adaptable and equipped with strong analytical thinking to deliver scalable, secure, and business-driven digital solutions.

EDUCATION

Universitas Nasional — Bachelor of Information Systems

Sep 2022 - Mar 2026

- Cumulative GPA: 3.93/4.00
- Awards: 100% Full-Tuition Academic Scholarship (Awarded from the first semester until graduation).
- Thesis: Market Basket Analysis using Apriori Algorithm as a Basis for Feature Development in Retail Information Systems.

RELEVANT EXPERIENCE

PT Kirana Megatara Tbk – Mobile Developer Intern

Mar 2026 - Present

- Engineered a secure PHP (CodeIgniter 3) API Gateway and recursive authentication mechanism to process complex organizational hierarchies and serve real-time factory data for KUT mobile application.
- Developed Progressive Web Application (PWA) modules using Vue.js, Framework7, and Vite for Rubber Blanket Thickness (Cek Ketebalan) inspection and KGB Drying Chamber tracking with interactive 4-story floor maps.
- Implemented intelligent Batch Skipping Validation with 30-second throttling and merged approval notifications to optimize rubber lowering operations for Plant Managers.
- Engineered bidirectional SAP RFC (Z_RFC_KGBMOBILEAPP) integration for Transfer Order (TO) Sync and Cancellation, featuring automated date-based flag resets, unsynced visual badges, and file audit logging.

PT Asuransi BRI Life – Back End Developer Intern

May 2025 - July 2025

- Developed and optimized scalable RESTful API endpoints using Node.js, successfully slashing data retrieval latency from 10 seconds to 700ms (a 93% performance increase) for new application features.
- Wrote and fine-tuned complex SQL queries in PostgreSQL, optimizing database performance and ensuring strict data integrity for backend services.
- Designed and implemented efficient database schemas for new application modules, ensuring proper data normalization within the company's core system.
- Engineered a customer engagement feature by building an automated birthday notification system using Node.js scheduled tasks (Cron jobs), directly enhancing user personalization.

Project Based Virtual Intern : Kimia Farma Big Data Analytics x Rakamin Academy

Apr 2025 - May 2025

- Managed large-scale data processing pipelines in Google BigQuery, handling over 670,000+ transaction records efficiently.
- Authored complex SQL queries to automate data aggregation and cleaning, ensuring data readiness for production-level dashboards.
- Developed dynamic visualization tools using Looker Studio to monitor key system performance metrics.

PT. Jaya Konsultan Indonesia – Internet of Things (IoT) Intern

Apr 2021 - May 2021

- Designed and developed a digital clock using Arduino Uno, integrating an RTC module for accurate timekeeping.
- Built an automatic temperature monitoring system with a DHT11/DS18B20 sensor and Arduino Uno, improving efficiency and reliability in environmental monitoring.

TECHNICAL SKILLS

- Languages: TypeScript, JavaScript, PHP, C/C++, Go (Golang), SQL, Python, R
- Backend & Cloud Engineering: Node.js, Codeigniter, Apache Kafka, Kubernetes (K8s), Docker, RESTful APIs, Microservices.
- Frontend Development: Next.js, React.js, Vue.js, Vite, Tailwind CSS, HTML5/CSS3.
- Databases: PostgreSQL, Microsoft SQL Server, Google BigQuery.
- Data & AI Competencies: Pandas, NumPy, YOLO (Computer Vision), Power BI.

LICENSES & CERTIFICATIONS

Link to Badge Profile : <https://www.credly.com/users/jvnprmnachmd>

Professional Certificates

- BNSP Certified Junior Web Developer
- Google Cloud Computing Foundations Certificate
- IT Specialist - Cybersecurity
- Google Cloud Data Analytics Certificate

Google Cloud Skill Badges

- Develop GenAI Apps with Gemini and Streamlit
- Inspect Rich Documents with Gemini Multimodality
- Prompt Design in Vertex AI
- Prepare Data for ML APIs on Google Cloud
